***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-14, drawn to the part transfer, classified in class 414, subclass 416.03.
  - II. Claims 15 - 22, drawn to a method for control part transfer, classified in class 29, subclass 603.03.
  - III. Claims 23 - 29 drawn to IC test method , classified in class 324, subclass 760.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, III and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as the method for controlling a motor or indexing mechanism. Inventions I and III has separated utility for semiconductor processing. See MPEP § 806.05(d).
3. Inventions I and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the

particulars of the subcombination as claimed such as the detail of the drive shaft and the mounting. The subcombination has separate utility such as transferring electronic devices.

4. A telephone call was made to mark P. Watson on 9/29/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
